**Colorado Technical University, Associate's of Science in Information Technology,** *summa cum laude*

November 2017 - October 2018

- Relevant coursework: computer security, operating systems, information technology, and networking.
- GPA 4.0

## PROJECTS

### Project #1: justinestroup.dev

Developed my portfolio from scratch using various development tools such as HTML5, CSS3, and JavaScript to showcase my projects.

### Project #2: Study Companion App

Developed a web-application designed to assist students in mastering crucial terminology and concepts, thereby enhancing their success in their academic endeavors.

### Project #3: ATM Banking Program

Developed a command-line interface program in JAVA using OOP principles and exception handling that allows users to deposit and withdraw from a mock bank account and view their account summary.
